#### DAILY PRIZE DROPS:

- To participate in a Daily Prize Drop, a player is required to play a real money spin of any bet stake on any of the participating games (hereinafter a “**Qualifying Bet**”).

- Each Daily Prize Drop will end daily upon the earlier of: (i) 18:59 CEST/CET or (ii) when there are no more prizes left.

## DAILY TOURNAMENTS:

- To participate in a Daily Tournament, a player is required to play a real money spin with a minimum of fifteen Euro cents (€0.15) or the currency equivalent on any of the participating games (hereinafter a “**Qualifying Bet**”).
  - Only the first five thousand (5,000) Qualifying Bets placed on any participating game will be eligible to score on the Daily Tournament leaderboard (the “**Qualifying Bets Limit**”). Once the limit is reached, the player can continue playing, but their bets will no longer count toward the Daily Tournament score.
- To qualify for a prize, players need to collect at least one (1) leaderboard point. No tournament points are rewarded for game play prior to opting-in, and points will not be rewarded retroactively.
- Players participating in a Daily Tournament may win prizes in the form of fixed cash amounts as set out in the Daily Tournaments Prize Table provided in these terms, further below. Prizes will be awarded according to the final leaderboard positions at the end of each Daily Tournament. Winners are ranked in descending order, from the highest to the lowest position, according to their total score.
- The score is calculated as the total sum of all wins multipliers received during a Daily Tournament. Points are earned for every spin played with a Qualifying Bet that results in a win multiplier (i.e win divided by stake amount) exceeding one (1). Win multipliers with decimals above 0.5 are rounded up to the next whole number, while those under 0.5 are rounded down to zero (0).

*Score calculation example for illustrative purposes only:*

*Score = Win / bet (1) + ... + Win / bet (n)*

*Player bets €1 and wins €50 => Score = €50 / €1 = 50*

*Player bets €5 and wins €1,000 => Score = €1000 / €5 = 200*

*Player buys a Free Spins feature on a Bonus Buy bet amount of €20 and wins €100 => Score = €100 / €20 = 50*

*The final score will be 200 + 50 + 50 = 300*

- Tournament points reset to 0 at the start of every new Daily Tournament.
- If a player purchases an in-game bonus feature (i.e Bonus Feature/Free Spins Feature) in any participating game (“**Bonus Buy**”) or places a Super Spin, Double Chance Bet, or Triple Chance Bet (only in the applicable jurisdictions), their Daily Tournament score will be calculated based on the corresponding Bonus Buy or special bet amount, and not the base bet amount.
- If a Bonus/Free Spins feature is triggered during gameplay and the player reaches the maximum multiplier win before all Free Spins are completed, the remaining Free Spins will be forfeited. The total amount won, including any wins from the initial spin, will count towards their Daily Tournament score.

- If a player wins a Jackpot in any participating game, the Jackpot win will not be counted for the tournament score.
- In the event of a tie, players with the same number of tournament points will be ranked based on who reached the points score first.
- The tournament is updated in real time, allowing any player to view the leaderboard in real-time and in-game at any time of their own choosing when playing the participating games.
